Plant Award Specification Sheet

The data on this form is used for generating certification materials, which includes a certificate for each plant and a letter to the Corporate Energy Manager (CEM) and Chief Executive Officer (CEO). Complete this form with company and plant names and contact information as it should be referenced on certification materials. The letters to the CEO will reference the plants that received certification and will acknowledge the CEM for helping reduce energy use. If any other staff should be acknowledged, please write their names and titles at the end of the form. For multiple plants that fall under the same CEO and CEM input additional plants on page 2. For multiple plants with a different CEO or CEM use a separate form. OMB Control No. 2060-0347

	Corporate Energy Manager	Corporate Communications Contact	Organization's Chief Executive Officer
